

Lisboa 4 - 8th
September 2017

The Organising Committee
welcomes you to the next **EMAPI**

EMAPI 14

International Conference on Ecology
and Management of Alien Plant Invasions

PORTUGAL | 2017

ECOLOGY AND MANAGEMENT OF ALIEN PLANT INVASIONS

SYNTHESES, CHALLENGES AND NEW OPPORTUNITIES

Registration open!

Abstract reception until **31 March**

Abstract decision communication until **30 April**

You can register at an Early Bird Fee until **01 May**

Early Bird Registration until **01 May**

Late Bird Registration until **30 June**

Cancellation until **15 July**

Check our website for more information www.emapi2017.org

EMAPI Conferences are held in alternate years at selected venues around the world, and are unique meetings where it is possible to present state of the art alien plant research.

We aim at gathering a large number of scientists, managers and policy makers from around the world, who will interact and explore ways to face global and regional challenges presented by alien plant invasions, for the benefit of the present and future generations.

**This year EMAPI will be held in Lisbon, Portugal,
between 4th and 8th September**

Lisboa 4 - 8th

EMAPI 14
International Conference on Ecology
and Management of Alien Plant Invasions
PORTUGAL | 2017

The Organising Committee
welcomes you to the next **EMAPI**

We will have plenary lectures on several important topics on plant invasions, and we will also have symposia, poster sessions (of course) and a delightful social program.

We will have sessions on

- New frontiers in alien plant invasions
Plenary lecture by Petr Pyšek, CAS, Czech Republic ✓confirmed
- How to promote and benefit from the collaboration of citizens?
Plenary lecture by Helen Roy, CEH, England ✓confirmed
- Impacts, risk assessment and implementation of prevention tools
Plenary lecture by Pilar Castro Díez, UAH, Spain ✓confirmed
- The challenge after the Paris protocol: is there a new paradigm for the use of Invasive Alien Species?
- Modelling plant invasions: the role of climate, traits and socioeconomy
Plenary lecture by Ingolf Kühn, UFZ, Germany ✓confirmed
- Biosecurity and management of alien plant invasions
Plenary lecture by John Wilson, CIB/SANBI, South Africa ✓confirmed
- The impact of biological invasions on ecological networks
Plenary lecture by Ruben Heleno, CFE, Portugal ✓confirmed
- Chasing invasive species with high technology
