

ADVANCED COURSES 2023 – 2024

cE3c's Advanced Courses are an excellent opportunity for professional enrichment, focusing on various scientific domains through approaches that cross theory and practice.

Apply until January 12, 2024

February 5 – 9, 2024 | Faculty of Sciences of the University of Lisbon or online

Until death do us apart: living in a symbiotic world

Silvana Munzi ^{1 2}, Cristina Cruz ¹ & Lourdes Morillas ³

¹ cE3c – Centre for Ecology, Evolution and Environmental Changes, Faculty of Sciences of the University of Lisbon

² CIUCHT – Interuniversity Centre for the History of Science and Technology, Faculty of Sciences of the University of Lisbon

³ University of Sevilla

WHAT YOU WILL LEARN

Although symbiosis is a key strategy for life on Earth, its definition and functioning are not fully understood, and its ecological role and relevance are still underestimated. Symbiotic associations vary from parasitism to mutualism and even simple persistent biological interactions, making the knowledge fragmented and focused on single symbiotic systems. In this course, we promote a multidisciplinary approach on the most recent findings and challenge the traditional way of considering symbiotic associations.
