

cE3c Advanced Courses 2018/2019

Soil ecology and ecosystem services

Taught by: Teresa Dias and Cristina Cruz | **January 28-February 1, 2019 @ FCUL**

Objectives: This five days intensive course aims at introducing attendants to an updated state of the art of diversity of the soil biota and the functional roles played by soil organisms in key ecological processes. SoilEco will have the participation of some of the most relevant specialists in the field and will enable a 'hands on' approach to the study of soil biology and ecology. The course will include both theoretical and practical (laboratory and desk) classes oriented in a problem solving perspective.

Deadline for applications: December 28, 2018

The course is free for a maximum of 10 1st year PhD students in the Doctoral programme in Biology (FCUL), Biodiversity, Genetics and Evolution (BIODIV UL, UP) and Biology and Ecology of Global Changes (BEAG UL, UA). For information of fees for other participants see the programme details.
