

cE3c Advanced Courses 2018/2019

Natural History Collections and Biodiversity

Taught by: Maria Judite Alves *et al.* | **January 28-February 1, 2019 @ MUHNAC**

Objectives: This course aims to:

- Highlight the importance of natural history collections for the study of biodiversity
- Teach new tools and approaches to extract and disseminate biodiversity data from natural history collections
- Increase the awareness of young researchers for the scientific and culture value of Natural History Museums.

Deadline for applications: January 7, 2019

The course is free for a maximum of 8 1st year PhD students in the Doctoral programme in Biology (FCUL), Biodiversity, Genetics and Evolution (BIODIV UL, UP) and Biology and Ecology of Global Changes (BEAG UL, UA). For information of fees for other participants see the programme details.
