

## cE3c Advanced Courses 2020/2021

### Island Biogeography

Taught by: Ana M. C. Santos *et al.* | June 22-25, 2021 @ FCUL

This course will only take place if possible in presential format

#### Objectives

This course covers the main aspects of island biogeography, and on completion of the course the students shall have acquired knowledge and understanding on: 1) Ecological/evolutionary theories developed from studies on islands, and its applications in other research areas; 2) Processes that occur during and after island colonization, that shape island communities; 3) Island evolutionary processes; 4) Applications of island biogeography to conservation biology.

#### Deadline for applications: May 14, 2021

The course is free for a maximum of 8 1st year PhD students in Doctoral programmes at FCUL (e.g. Biology), Biodiversity, Genetics and Evolution (BIODIV UL, UP) and Biology and Ecology of Global Changes (BEAG UL, UA). For information of fees for other participants see the programme details.
