

ADVANCED COURSES 2023 – 2024

cE3c's Advanced Courses are an excellent opportunity for professional enrichment, focusing on various scientific domains through approaches that cross theory and practice.

Apply until March 1, 2024

April 1 – 5, 2024 | FCUL & Alviela Scientific Residence

Entomology: insect diversity and decline – NEW

Ana Sofia Reboleira ¹ & Roberto Keller ^{1 2}, *et al.*

¹ cE3c – Centre for Ecology, Evolution and Environmental Changes, Faculty of Sciences of the University of Lisbon (FCUL)

² MUHNAC – National Museum of Natural History and Science, University of Lisbon

WHAT YOU WILL LEARN

This course will provide a general understanding of insect diversity and decline. To capacitate students to recognize insect taxonomic groups, understand major evolutionary transitions in insect evolution, and to identify major threats to entomofauna. It includes several case studies of insect adaptation, and the most recent overview on insect evodevo, plasticity, ecophysiological responses and conservation under global change. The venue will be divided between the Faculty of Sciences of the University of Lisbon, and the Alviela Scientific Residence at Serras de Aire e Candeeiros Natural Park, where fieldwork will take place.
